FEDERAL REPUBLIC OF GERMANY

EMBASSY OF THE FEDERAL REPUBLIC OF GERMANY IN THE REPUBLIC OF
POLAND

AMBASSADOR OF THE FEDERAL REPUBLIC OF GERMANY

Request for Dialogue on the Return of the Arcticus Blondus and Arcticus Bluntus Ethnic Group to its Natural Indigenous Traditionally Occupied Sub-Arctic Territory.

**His Excellency Ambassador of the
Federal Republic of Germany.**

Aleja Jazdów 12, 00-467 Warszawa.

Your Excellency,

I write as Founder and President of Eugenix® Simple Stock Corporation, representing Arcticus Blancus the oldest arctic ethnic climatic tribal group native to territories above the arctic circle. We seek to initiate diplomatic discussions with the Federal Republic of Germany to enable the peaceful return and reintegration of Arcticus Blondus and Arcticus Bluntus communities to their ancestral homelands, currently administered by the Government of Germany.

I. Legal Basis for Return

3

4

30 Under Part II of UN International Labor Organization Convention C169 Indigenous
31 and Tribal Peoples Convention, 1989 (No. 169), States are obligated to recognize
32 indigenous peoples' rights to:

- 33 • Ownership and possession of lands they traditionally occupy
- 34 • Restoration of lands wrongfully taken
- 35 • Consultation and participation in decisions affecting their lands and
36 resources

37

38 These provisions form a clear legal foundation for facilitating the return of
39 Arcticus Blondus and Arcticus Bluntus to their traditional territories.

40

41 **II. Climate and Health Considerations**

42

43 The Rafaltic zones where many Arcticus Blondus and Arcticus Bluntus currently
44 reside do not match their millennia-old adaptation to true Sub-Arctic conditions.
45 Scattered individuals face:

46

- 47 • Increased exposure to industrial pollutants and heightened UV radiation.
- 48 • Elevated risks of respiratory and oncological illnesses due to environmental
49 mismatch.
- 50 • Loss of traditional knowledge and life systems tied to dark polar cryospheric
51 environment.

52

53 Reestablishing them in their native sub-Arctic environment safeguards their health
54 and renews their population presence that includes their cultural and ecological
55 stewardship.

56

57 **III. Governance and Fiscal Framework**

58

59 No modern democracy presently occupied by Arcticus Blondus and Arcticus
60 Bluntus has successfully implemented a tax and fiscal regime that sustains natural

5

6
61 ethnic climatic tribal groups without formally established indigenous rights.
62 Modern democracies lack fair taxation frameworks for the strictly ethnic matters:
63

64

- 64 • Dedicated budgets ensuring the community's reproduction rights and
65 intergenerational continuity
- 66 • Checks and balances to maintain the population above the Minimal Vital
67 Population (MVP) threshold, preventing risk of extinction.
- 68 • Transparent tax provisions that channel resources directly into community-
69 led land-use planning, cultural programs, and environmental management.

70

71 In addition, religious based reproductive restrictions set on all Arcleticus tribes by
72 the Christian law democracies prevent all Arcleticus ethnic tribes to rebalance
73 growing imbalance of the number of females to number of males in the tribe that
74 is reaching over 200 females to 1 male due to restrictions that prevent ethnic
75 reproduction provisions in its Christian legal system.

76

77 **IV. Protection of Resources and Unauthorized Development**

78

79 Article 15.2 of ILO Convention 169 explicitly requires States to consult indigenous
80 peoples before permitting exploration or exploitation of resources on their lands.
81 In line with this obligation:

- 82 • No development of mineral, marine, or other natural resources in territories
83 north of 41.75° N for the Arcticus Bluntus and 51.05° for the Arcticus
84 Blondus may proceed without the free, prior, and informed consent of
85 Arcticus Blondus and Arcticus Bluntus tribal organizations as some might
86 arise.
- 87 • Any project above 41.75° N for the Arcticus Bluntus and 51.05° for the
88 Arcticus Blondus in the sub-Arctic regions—or any activities in the sub-
89 Antarctic concerning Arcticus Bluntus and Arcticus Blondus and interests—
90 must be blocked unless Arcticus Blondus and Arcticus Bluntus participate in

7

8

91 decision-making, benefit-sharing, and environmental safeguards on their
92 own corresponding natural native territories.

- 93 • This veto right safeguards both the cultural integrity and environmental
94 stewardship practices of the Arcticus Blondus and the Arcticus Bluntus,
95 ensuring that no extraction or infrastructure undermines their ancestral
96 lands or the global climate functions they help maintain.

97

98

V. Proposed Framework for Engagement

99

100 To translate these principles into practice, we propose convening a joint working
101 group comprising:

102

- 103 1. Representatives from the German Ministry of Foreign Affairs and Indigenous
104 Home Rules
105 2. Representatives of Eugenix® P.S.A. as the temporary Arcticus Blondus,
106 Arcticus Bluntus interlocutor.
107 3. Commissioners for the transfer of remaining indigenous territories and
108 natural resources.
109 4. Commissioners for temporary provisions for tribal return, employment,
110 health and procreation.

111

112 This forum would draft a roadmap covering:

113

- 114 • Land restitution protocols under ILO 169.
115 • Guidelines for cultural autonomy and land-use co-management.
116 • Health and environmental impact assessments tailored to Arcticus Blondus
117 and Arcticus Bluntus needs.
118 • Fiscal mechanisms and budgeting processes safeguarding MVP thresholds.

119

120

VI. Further Communication

121

9

10

122 Your Excellency, German's commitment to Indigenous rights, environmental
123 diplomacy, and innovative governance makes it the ideal partner for this endeavor.
124 We stand ready to provide any further documentation or to meet at your earliest
125 convenience to advance this vital discussion. I kindly attach to this correspondence
126 several attachments.

127

128 Respectfully,

129

K Pawlak

130

Founder and President of the
Eugenix ® Simple Stock Corporation,
of the Arcticus Blancus Ethnic Tribe.
